

Is this training school for you?

- Are you a medical student, resident, PhD candidate or post-doc who is interested in pathology?
- Are you interested in clinicopathology and the basic understanding of disease development?

If you answered yes to some of the above, then this school is for you!

What you will learn:

You will learn the fundamentals of *post-mortem* diagnostics, autopsy and clinicopathology.

Content:

- Autopsy practices: guaranteed number of minimum 6 autopsies per course
- Organ focused seminars in clinicopathology
- Digital histopathology: sample evaluation from the autopsy cases and relevant organ focused slides

Factoids:

- We will accept maximum 24 participants per week
- For medical students, and residents
- 6-8 students per tutor
- The school takes place in Budapest
- Lunch will be provided
- Participation is only possible for the entire week
- Travel and accommodation arrangements are your own responsibility
- Extra courses can be organized on demand

Course Fee: 850 EUR
